MEC DIESEL CAMBIA LOOK

A BRAND NEW LOOK FOR MEC DIESEL PRODUCTS

Nuova veste grafica e qualità imballo sempre più alta per proteggere i prodotti distribuiti in tutto il mondo

New packaging graphics and higher quality to protect the products distributed all over the world

Etichette con codici a barre per una gestione degli articoli rapida ed efficiente

Labels with barcodes for quick and efficient items management

La **MEC DIESEL** da sempre è attenta alla cura dei dettagli, proprio per questo ha deciso di rinnovare la grafica e la qualità del packaging.

I prodotti Mec Diesel, con oltre 40.000 spedizioni annue, sono distribuiti in tutto il mondo in tempi brevi, grazie alla collaborazione con le maggiori aziende di logistica nazionali ed internazionali.

***MEC DIESEL** has always paid attention to the details, this is the reason why we have decided to renovate packaging graphics and quality.*

Mec Diesel products, with more than 40.000 shipments per year, are distributed all over the world in a short time, thanks to the collaboration with the most important national and international logistics companies.

MEC DIESEL
ENGINE PARTS SPECIALIST

CHI SIAMO
About us

La MEC-DIESEL nasce nel 1983 per soddisfare l'esigenza del mercato di reperire parti di ricambio per motori. La necessità di fornire ai clienti prodotti di elevata qualità, ci ha portato, nel corso degli anni, ad una specializzazione estrema scegliendo sempre partner in possesso di qualifiche e certificazioni riconosciute a livello mondiale. Per far sì che il mercato acquisito si sviluppasse in modo soddisfacente, nel 1996 la Mec-Diesel srl viene trasformata in società per azioni, la Mec-Diesel Spa.

Continuando nell'ottica del miglioramento, nel 1999 nasce la Sicil-Mec, società consociata con sede a Catania e nel 2014 nasce Deposito Ariano con sede ad Ariano Irpino, per sviluppare e servire meglio i mercati limitrofi.
La MEC-DIESEL può oggi presentare nel proprio catalogo particolari adattabili alle maggiori case nazionali ed internazionali con oltre 8.000 articoli in oltre 70 paesi del mondo, con un predominante interesse verso le motorizzazioni destinate ai veicoli industriali e commerciali IVECO/CNH - MAN - MERCEDES - SCANIA - VOLVO - RENAULT.

Inoltre è stato conseguito l'obiettivo di garantire una consegna sul territorio nazionale entro 24 ore, grazie alla collaborazione con i principali corrieri espresso nazionali.
Il nostro lavoro si concentra nel'ottica di ampliare in modo costante l'offerta di articoli, così da poter coprire in ogni momento la richiesta del mercato mondiale, sia per veicoli commerciali e industriali, sia per macchine agricole, movimento terra e autovetture.

MEC-DIESEL was founded in 1983 to cover the market needs in searching engine spare parts. The choice to supply the customers with high quality products has brought us to the forefront in our expertise area with our certified partners, recognized on an international level. In 1996 MEC DIESEL has changed its status from LTD to JSC.

In 1999 our sister company Sicil Mec has started its business and in 2014 Deposito Ariano was opened in order to increase the market in the south of Italy. Today we supply more than 8000 items in over 70 countries, with a particular attention to on-road and industrial IVECO/CNH - MAN - MERCEDES - SCANIA - VOLVO - RENAULT engines.

We reached the goal of 24/48 hours delivery time within the whole Europe.
Our work is focused on widen our product range in order to meet the needs of the International Market at any time, for on-road and industrial applications as well as for agricultural, earth moving machines and passenger cars.

CHI SIAMO
About us

La MEC-DIESEL vanta un'esperienza trentennale nel commercio di parti di ricambio nuove per motori diesel.

La qualità dei prodotti Mec-Diesel è oggi riconosciuta in tutto il mondo come prima scelta in alternativa ai prodotti OEM di tutti i motori per veicoli commerciali e industriali.

Il dialogo permanente tra i clienti, i fornitori ed il nostro personale garantisce un miglioramento continuo del servizio e della qualità.
Per fornire ai Clienti la possibilità di approvvigionarsi quotidianamente di tutti i particolari che servono alla revisione e manutenzione dei motori, il nostro database permette una precisa e veloce identificazione del particolare.

A garanzia dell'effecacia del servizio MEC-DIESEL, abbiamo raggiunto e manteniamo con successo la certificazione ISO 9001.

Inoltre per facilitare maggiormente il Cliente, registrandosi sul nostro web shop, è possibile verificare immediatamente la disponibilità a magazzino, nonché il prezzo riservato.

Mec-Diesel with its thirty years of experience is a leader in the field of engine spare parts trading.

The quality of Mec-Diesel products today is known all over the world as the first alternative choice to OEM products for on-road and industrial engines.

The constant dialogue with customers, suppliers and our staff improves every day the offered services and quality.
Our database allows the exact and quick identification of the part in order to give our customers the possibility of daily supply with any part necessary to rebuild and fix the engine.

To guarantee the efficience of MEC-DIESEL service, we have achieved and maintain with success ISO 9001 certification.

In order to assist the customer, we give the option to be registered in our web-shop where net prices and availabilities can be immediately checked.

MANAGEMENT SYSTEM CERTIFICATE

Certificato No. / Certificate No. 50651-2009-AQ-ITA-SINCERT

Si attesta che / This is to certify that

MEC-DIESEL S.p.A.

Via Sestriere, 3 - 10060 Candiolo (TO) - Italy

E' conforme ai requisiti della norma per i sistemi di gestione:
has been found to conform to the management system standard:

UNI EN ISO 9001:2008 (ISO 9001:2008)

Questa certificazione è valida per il seguente campo applicativo:
This Certificate is valid for the following product or service ranges:

Commercializzazione di motori originali per mezzi di trasporto per persone, merci e altro.
Commercializzazione di ricambi originali e non, a marchio proprio di parti di motore per mezzi di trasporto per persone, merci e altro (Settore EA : 29a – 22a - 18)

CATALOGO KIT RETTIFICA MOTORE MEC DIESEL QUINTA EDIZIONE

Mec-Diesel engine repair kits fifth edition catalogue

Il catalogo KIT Rettifica Motore Mec Diesel è giunto alla sua quinta edizione. Grazie alla costante ricerca e alle vostre segnalazioni, ha raggiunto una gamma di oltre 1000 kit, garantendoci la totale copertura dei motori di applicazione Iveco, Aifo e New Holland e una selezione sempre più vasta di veicoli circolanti stranieri quali DAF, MAN, Mercedes, Renault Trucks, Scania e Volvo.

Si arricchisce inoltre di una ampia scelta di KIT Rettifica Motore con applicazione veicolare leggera, vettura e veicoli commerciali, come Fiat, Ford, Mitsubishi, Renault, Smart e Volkswagen di alta movimentazione.

I KIT Rettifica Motore sono riportati per Costruttore ed in ordine crescente in base al diametro del pistone. Sono presentati secondo alcuni criteri, che offrono molteplici possibilità agli operatori:
- con pistoni OE (IVECO), con pistoni a marchio MEC DIESEL o di primo impianto.
- con o senza valvole di aspirazione e scarico.
- possono essere forniti con diverse maggiorazioni di bronzine banco e biella, a seconda delle esigenze.
- sono offerti con la guarnizione testata di prevalente spessore, con la possibilità su richiesta, di ogni alternativa.

Le descrizioni sono costruite in modo da facilitare l'identificazione corretta del KIT, con particolari descrittivi quali la presenza o meno del bordo della canna e soprattutto, le caratteristiche della vaschetta di combustione del pistone, che è un particolare indispensabile per la sua corretta definizione.
Eventuali KIT non presenti nel catalogo possono essere composti su richiesta specifica.

The Mec-Diesel Engine Repair KITS catalogue is now in its fifth edition. Thanks to ongoing research and to your feedback, it now has a range of over 1,000 kits, providing us with total coverage of application engines Iveco, Aifo and New Holland and a more extensive selection of foreign vehicles such as DAF, MAN, Mercedes, Renault Trucks, Scania and Volvo.

It also boasts a wide selection of Engine Overhauling KIT with light vehicular application, fast moving car and commercial vehicles such as Fiat, Ford, Mitsubishi, Renault, Smart and Volkswagen.

The Engine Repair KITS are reported by the Manufacturer and in ascending order according to the piston diameter.
They are submitted according to certain criteria that offer many opportunities for operators:
- with OE pistons (IVECO), with brand MEC-DIESEL or original equipment pistons.
- with or without the intake and exhaust valves.
- they can be supplied with different undersize grades of main and connecting rod bearings, depending on your needs.
- they are offered with the cylinder head gasket of the prevailing thickness, with the option on request of each alternative.

Descriptions are made to help for the right KIT identification, reporting deep details as the presence or absence of the barrel flange and, above all, the combustion bowl design, which is fundamental for the right piston definition.
Any KIT not listed in the catalogue can be made on specific request.

ESCLUSIONE DI RESPONSABILITÀ E COPYRIGHT
Disclaimer and copyright

I dati riportati nel nostro catalogo sono stati attentamente controllati dal nostro personale, ma non sono da considerarsi vincolanti. Dato le diverse varianti e modifiche apportate dalle case produttrici, l'utilizzatore deve accertarsi che le parti siano adatte al suo scopo.

Richieste di risarcimento danni causati dall'utilizzo non conforme di componenti contenuti nel catalogo, non saranno riconosciute. Tutti i particolari da noi forniti devono essere montati da personale specializzato, in caso contrario Mec Diesel non si assume responsabilità.

Mec Diesel è proprietaria di tutti i dati inseriti in questo catalogo, pertanto l'acquisizione parziale o completa dei contenuti e la duplicazione degli stessi, è consentita soltanto previa approvazione scritta da parte di Mec Diesel, come da nota di copyright.

Mec Diesel si riserva il diritto di apportare sviluppi tecnici o modifiche ai contenuti senza alcun preavviso.
Restiamo a disposizione per eventuali chiarimenti.

The information contained in our catalogue has been carefully checked by our staff, but it is not to be considered binding. Given the different variations and modifications made by the manufacturers, the user must ensure that the parts are suitable for their purpose.

Claims for damages caused by the non-compliant use of components contained in the catalogue, will not be recognised. All the parts supplied by us must be installed by qualified staff, otherwise Mec Diesel can not assumes responsibility.

Mec Diesel is the owner of all the data included in this catalogue. Therefore, the partial or complete acquisition of the content and the duplication thereof, is permitted only with the prior written approval of Mec Diesel, as noted in the copyright.

Mec Diesel reserves the right to introduce technical developments or changes in the content without prior notice.
We remain at your disposal for any clarifications.

MONTAGGIO BRONZINA SPUTTER - *SPUTTER BEARING MOUNTING INSTRUCTIONS*

FIG. 1

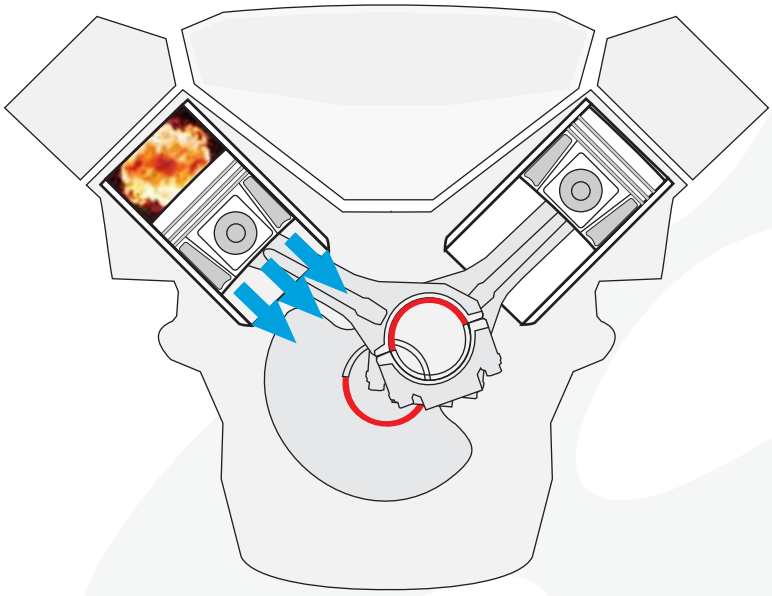

FIG. 2

I cuscinetti SPUTTER con polverizzazione catodica PVD (Phisical Vapor Deposition), sono utilizzati principalmente sul lato di pressione dei punti di appoggio. La corretta posizione di montaggio dei cuscinetti SPUTTER è un requisito essenziale per un funzionamento sicuro.

Nel caso di cuscinetto di biella, viene utilizzato sul lato stelo superiore, mentre il cuscinetto di banco viene utilizzato sul lato del operchio inferiore. [FIG.1]

I cuscinetti SPUTTER con polverizzazione catodica PVD, sono contrassegnati dalla parte posteriore scura. [FIG.2]

Sputtered bearing shells with Physical Vapor Deposition (PVD), are primarily used on the thrust side of bearings. The sputtered bearing shell must be installed in there correct position to ensure operational safety.

In the case of conrod bearings, the sputter bearing is normally used in the rod side (top), the main bearing on the cap side (bottom). [FIG.1]

Sputter bearings are therefore always marked “sputter” on the back. [FIG.2]

La nuova applicazione di MEC DIESEL, leader nel mercato ricambi motori, vi fa conoscere meglio l'azienda torinese con un video della sede di Candiolo, dei magazzini e degli articoli in vendita. Nell'applicazione troverete anche l'elenco dei prodotti e attraverso le nostre pagine facebook e website potrete trovare tutte le novità e informazioni necessarie sull'azienda.

The new application of MEC DIESEL, a leader in the spare part market, helps you learn more about the company based in Turin with a video of Candiolo office, warehouses and items for sale. There is also a list of products in the application and through our website and facebook pages you will find all the news and information you need about the company.

È noto che **MEC-DIESEL** è in grado di fornire alla clientela una gamma ed una disponibilità di componenti motore ai massimi livelli del mercato di riferimento.
Partendo da questa base siamo in grado di offrire ora anche numerosi altri componenti di sistemi e apparati complementari al gruppo motopropulsore, più semplici da identificare e montare.
Il nostro sito di e-commerce si sta migliorando per questo.

***MEC-DIESEL** is able to provide their customers with the product range and availability of engine components on the top level of the market.*
Besides we can offer many other components of the systems and complementary parts to the powertrain, easy to identify and to fit.
Our e-commerce is getting better for this.
